BAND-IT®

Stainless steel cable fixing solutions

for critical environments

Whether it is an offshore platform, ship, refinery, tunnel, bridge, power station or public building, BAND-IT® has the product to suit your application.

BAND-IT-IDEX is the world's leading manufacturer in quality clamping and banding systems. Since its inception in 1937, BAND-IT® bands and clamps have been used in nearly every industry today including: Industrial, Agriculture, Construction, Defence, Hose, Electrical, Municipal, Utility, Electronic, Engineered Applications, Automotive Aftermarket and OEM, Petrochemical, Downhole, Identification, Insulation, Marine and Subsea.

A unit of IDEX Corporation, BAND-IT® is positioned globally with manufacturing facilities around the world including an international network of sales representatives and distributors to serve users anywhere in the world.

Total Fastening Solutions

Markets and applications

Petrochem (Offshore & Onshore)

Ship Building

Railways

Power

Tunnels & Bridges

Public Buildings

Telecommunications

Fire hazards... corrosive environments... temperature extremes... for many applications, plastic cable ties and identification tags are simply inadequate – or even dangerous.

BAND-IT® ties and fixings have the solution...

APPLICATIONS

- Attachment of cables to tray / ladder, etc.
- Bundling cables / hoses together
- Attachment of identification tags
- Attachment of thermal insulation
- Attachment of sound insulation
- Alternative to expensive cable cleats (BAND-FAST™ Clamps)

BENEFITS

- Fire resistant
- Withstand temperature extremes
- Salt spray resistant
- Chemical resistant
- UV resistant
- Weather resistant
- Shock tested
- Short Circuit tested (BAND-FAST™ Clamps)
- Vibration proof
- No sharp edges
- Low profile
- Long service life
- Quick & easy to install
- LSF / Zero Halogen coatings
- Manufactured in the UK

Project examples

The Clamping Experts

With global manufacturing and product development facilities, (including our UK manufacturing & product development site), BAND-IT® provides high quality products with friendly and efficient service creating true value for our customers across Europe and the rest of the world.

PROJECT: Bacton Gas Terminal
PRODUCT: Nylon Coated Multi-Lok Ties
REASON: Fast installation, corrosion resistant, fire resistant

PROJECT: Aker Solutions H6e Drilling Platforms
PRODUCT: PPA Coated BAND-FAST™ Clamps (in place of cleats)
REASON: Short Circuit strength, low cost, fast installation, health & safety advantages

PROJECT: Walbrook Office / Retail development
PRODUCT: PPA Coated BAND-FAST™ Clamps (in place of cleats)
REASON: Short Circuit strength, low cost, fast installation

PROJECT: Channel Tunnel
PRODUCT: PPA Coated BAND-IT® Cable Ties
REASON: Fire resistant, low smoke & fume coating, vibration resistant

PROJECT: Babcock Marine – various ship & submarine projects
PRODUCT: Ball-Lok Ties & PPA Coated BAND-FAST™ Clamps
REASON: Speed of installation, ease of use, strength, vibration resistant, corrosion resistant, LSF / ZH, shock tested

Total Fastening Solutions

TIE-LOK® AND MINI TIE-LOK® TIES

- Low profile buckle
- A strong patented dimple lock
- Great for cable bundling or ID attachment
- Application tools with adjustable tension setting

BALL-LOK TIES

- Self-locking ties
- Fast, easy application
- Coated or uncoated versions available
- Apply by hand or with K502 or KE922 tools

MULTI-LOK TIES

- Self-locking ties
- Unique multiple locking system
- Coated with Nylon 11 or uncoated
- Fast, easy application
- Apply by hand or with M503, KE922, AE200 or AE201 tools

BAND-IT® TIES

- Reusable tie
- Low Smoke, Zero Halogen PPA coated for superior corrosion resistance
- Thick coating protects cables & hands
- Fast, easy application
- Apply by hand or with C075, AE200 or AE201 tools
- Vibration proof

BAND-FAST™ CLAMPS

- Great alternative to cable cleats
- Lower installation cost
- Light weight
- Health & safety advantages
- Tested for short circuit strength (15.88mm)
- Low profile
- Applied using C075 Tool

BAND-IT® application tools are designed specifically for use with stainless steel cable ties to ensure the best possible finish to the installed tie.
