Operating Instructions
A91079 Mini Tie-Lok II Tool

Warning:
Always wear safety glasses when operating hand tool.

Instructions:

1. Turn tension adjustment knob until desired tension setting is displayed in tension indicator window. Space between numbers counts as one-half setting. See step 6.

2. Extend handle open to release gripping mechanism and insert clamp tail into tool through front load entry.

3. Squeeze handle repeatedly to tighten band around object. Be sure to release handle completely to use full pull-up stroke of tool. Buckle must be secure against the tool head and nestled between the two retention clips. Once the preset tension has been reached, the handle will no longer release completely.

4. To cut-off excess clamp tail, squeeze handle one last time.

5. The tool must be reset by, extending the handle out until it snaps into place, the tool will be ready to apply the next clamp.

6. Tension Setting Range:

   .177 Smooth I.D. Mini Tie-Lok 0 – 8
