BAND-IT Cable Restraint Solutions

BAND-IT's PPA Coated 316 Stainless Steel Bands are the perfect alternative to cable cleats for cable management applications that require short circuit protection to IEC61914:2015 Standards.

• Increased profitability

• Space saving with lower profile finish

• Logistical and handling benefits (easier to move around site in bulk)

• 316 grade stainless steel

• High Performance PPA 571 coating eliminates the need for protective channel/lining

• Zero Halogen, low smoke & fume

• Materials covered by multiple type approvals

• Standard width 5/8" (15.88mm) - other widths available

• Large diameter adjustment - fewer part numbers to order

BAND-IT® PPA Coated 316 Stainless Steel Bands 25m roll

0.38mm 316 Stainless Steel Band with a 0.42mm PPA Coating on both sides of the band
